

# The Culinary Herb Garden

---

*A wide variety of herbs can be grown in our area*

## LOOK FOR:

**A variety of culinary herbs** commonly used in the home kitchen.

**The hops growing on the trellis.** These herbal vines can grow 10-15 feet in a single season. They are used in some types of beer, but they also create a wonderful ornamental perennial vine.

**An herb you have never used before.** Smelling the leaves, flowers, or seeds might inspire you to create a new flavor or seasoning in a favorite dish, like adding lovage to your basil pesto.

## NOTES:

The Culinary Herb Garden demonstrates the numerous herbs you can grow in Southern Oregon.

These can be eaten fresh, used in cooking to flavor your favorite dishes, or made into a tea.
