

Native Plants Nursery

“Nature’s best hope” - by Doug Tallamy

LOOK FOR:

Trees, shrubs, vines, perennials, annuals, and groundcovers native to Oregon and North America. This may look like a regular plant nursery, but these are all native plants!

Information on plant labels that will help you learn how to incorporate natives in the home landscape to support native wildlife.

Plants from this nursery that are for sale to the public throughout the year.

NOTES:

Native plants provide critical biodiversity services:
food web support,
soil restoration, pollinator habitat,
carbon sequestration,
water filtration, and
wildlife habitat.
